“BLUE SKY” ACTIVITY
This activity focuses students on identifying and responding to community needs.

Blue Sky is a visioning exercise that guides students in imagining a better world. Students are asked to take a look at their class, school neighborhood, community, state, nation, and/or the world. They reflect on the way it is and then imagine the way they would like it to be. Service leaders are encouraged to use this strategy at the beginning of the service experience and to revisit it before planning each service project with the students.

Blue Sky serves as a launch pad for the school year of service. The service leader may refer to the students’ Blue Sky thoughts throughout the year as a form of evaluation (How are we doing on the issues we identified?) and review (What issues are still important to us that need to be addressed?).

This activity encourages empathy, compassion, and self expression. It also helps students learn to react to a negative situation with a positive action.

The activity can be on a small or large scale. On a smaller scale, Blue Sky serves as a classroom activity. A service coach may lead a personalized visioning activity with one class or group, facilitating brainstorming of real issues that students have passion for, and then guiding the students to use those results as a focus for their future service projects.

On a large scale, the activity may be conducted as a Community Blue Sky Event with the whole school and include family and community members. Hold a breakfast or town hall meeting. Organize the group into smaller groups for brainstorming, and have each small group share their main ideas for improving the community.

Encourage students to organize much of the Community Blue Sky Event because they will be setting the tone for the year’s service goals. They may create the invitation list, organize the breakfast and activity, and select topics for discussion.
“BLUE SKY” ACTIVITY (continued)

Materials:
8½ x 11 paper (blue if possible), enough for each participant
Crayons/markers/colored pencils

Activity:
1. Discuss the meaning of community as it relates to the student’s experience: home, school, friends, neighborhood, city, state, country, and world.
2. Ask students to identify what is good about their community and what they would like to see improved or changed. Create a chart to fill-in as the students discuss:

<table>
<thead>
<tr>
<th>Good</th>
<th>Improve or Change</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

3. Give each student a piece of blue paper.
4. Invite students to portray their ideal world or what they would like their world to look like in 10 years—what the world/community could look like if everyone worked together. Students can draw, color, paint, or create collages on their blue paper.
5. When the students are finished, allow each student time to share their creation with the class.
6. Record students’ thoughts and ideas on a display board, and identify and reflect on some of the recurring themes. This can be helpful in identifying student interests for planning of service projects.
7. As a class, briefly brainstorm ideas on how to achieve the vision and what challenges they might face in achieving “the ideal.”
8. Create a “permanent display” of the students’ illustrations. It is recommended that these illustrations remain available for display for the school year as a reference for future reflection and planning. The student papers can be combined into a collage, quilt, or bulletin board display. A paper “quilt” may be rolled up and stored and brought out for appropriate discussions.
